

Undercover Facility

Kingsthorpe State School was successful in its application to the *Investing In Our Schools* Programme for \$150 000 to construct an Undercover Sports Facility. Our old tennis-basketball court had the fences removed and a shed built over the top.

This is a great advantage to our school providing:

- Both a shaded and dry area for sports PE lessons and lunchtime play.
- A hall facility for assemblies and visiting performances
- A hall facility for our end of year concert.

Look at the transformation!
